

3M™ Wireless Communication System Model XT-1 and G5 Technical Bulletin- #150

XT-1 and G5 Wireless Headsets, Battery, Battery Charger and Charging Station – Semi-Annual Maintenance

The ear pads, ear cups, headband pad and windscreen foam pads on a XT-1 Wireless headset should be inspected and if missing, replaced to provide comfort for the user and to ensure proper operation. The batteries contacts should be cleaned if you see any dirt or grease layered on the contacts. The battery charger should be checked to ensure proper operation..

It is recommended that this be done on a monthly basis.

This document describes the maintenance procedure.

Frequency:	Monthly	
Time Required:	10 minutes to prepare	10 minutes to complete
Time of day	Evening after closing.	For 24-hour restaurants: during slow period

- **Gather equipment to be inspected**
Gather all headsets, batteries and battery charger.

Tip:

For 24-hour restaurants, clean equipment not in use first. Then swap out cleaned equipment with equipment worn by crew members.

- **Replace any parts missing on the headset**
Verify that all headsets have windscreens, ear foam pads and cushions. If missing, replace as needed, from the Manager's Service Kit.
Order Manager's Service Kit (SKU# 78-6911-4740-5) by calling 1-800-328-0033

- **Clean battery contacts**

With a clean pencil eraser, gently rub eraser over battery contacts. Wipe off eraser shavings with a clean soft cloth

- **Clean battery charger**

Unplug battery charger from the wall. Turn battery charger upside down and shake out any loose debris. With a clean pencil eraser, gently rub eraser contacts. Wipe off eraser shavings with a clean soft cloth.

NOTE: Make sure the battery charger is unplugged before cleaning and that all batteries have been removed.

- **Clean all equipment**

Use a cloth or cotton swab, lightly moistened, to remove grease and crumbs from your equipment. You may use a dry toothbrush to dislodge any hard crumbs.

NOTE: Never clean your drive-thru audio equipment with spray cleaners or solvents as they can damage the internal electronics and cause corrosion
